Plano, TX 75074

Dear Mr. Stephens,

In an effort to assist you in growing the website design portion of your business and increase your potential client base in that regard, I want to take this opportunity to express my personal experience.

I first sought your expertise in early 2007 as I was starting my medical practice. At that time I consulted you in the development of a comprehensive business plan, and some months later in the development of my current website.

I can say without hesitation, that I was impressed with your knowledge and practicality in forming both my business plan and website. Your patience with my full schedule was well appreciated and evidence of your eagerness for me to succeed.

My website is a testament of your diligent ingenuity, hard work, and exceptional design quality. I frequently receive positive comments from both patients and practitioners on the superiority of its design and layout.

In closing, I highly recommended your web design services to any business or individual seeking an exceptional product from a true professional. Let me now encourage any of your potential clients to visit my website firsthand.

Sincerely,

Dr. Robert Jeffrey Doyle
