Re: Health Insurance Website Development for Sureinsurance.com

Dear Rick,

Thank you so much for making a difference for our health insurance business. Prior to hiring your organization, we were getting lots of hits on our health insurance website, but customers were not calling or willing to sign up for health insurance after their visit.

As a result of your work, our website not only looks better, but has had a dramatic increase in traffic; customers were spending more time on our website, and most importantly, became customers. In addition, referrals from our web customers have also increased. The ROI on the marketing dollars spent was immediate and was paid for shortly after launch.

Thank you for become a valued partner.

Sincerely,

*James T. Banh
President*
